

ONLINE INTERVIEW - TAKE IT SERIOUS

WWW.360AGENCY.ME

PREPARE YOURSELF

Treat your online interview in the way you would treat a live interview

Be online 15 minutes before the interview

Sometimes the employer has time earlier and will call you at his convenience.

Dress to impress

It is always better to wear a business dress code; you should look as if you had come for a personal interview at the company office or restaurant. Sometimes during the conversation, the employer asks you to stand up to see the candidate at full length, so you must be fully dressed, including shoes!

Camera, Phone and Room

Make sure you are in a bright and quiet room, place the phone somewhere stable (do not hold it in your hand and shake it around), and make sure you have a great WIFI connection.

Emergency

In case of any emergency or if you cannot attend the interview, please inform the interviewer or Agency immediately! Stay professional in any case.

DURING THE INTERVIEW

The first impression is significant

When the interview starts, smile bright and greet your interviewers.

Be positive, stay calm and be yourself

You will be asked many questions at the interview, this is for the employer to understand if you are a good fit for the team. Always tell positive about your experience and mention why you want to work for this company or in this country/city.

How to end the interview

Smile and thank the interviewer for his time and say it was a real pleasure meeting them.
